                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.

RESULT 15

US-09-489-039A-341

Sequence 341, Application US/09489039A

Patent No. 6610336

GENERAL IMPORMATION:

APPLICANT: GATY Breton et. al

TITLE OF INVENTION: NUCLEIC ACID AND AMINO ACID SEQUENCES RELATING TO KLEBSIELLA

TITLE OF INVENTION: PNEUMONIAE FOR DIAGNOSTICS AND THERAPEUTICS

PILE REFERENCE: 2709.2004001

CURRENT APPLICATION NUMBER: US/09/489,039A

CURRENT APPLICATION MIMBER: US/09/489,039A

CURRENT APPLICATION NUMBER: US 60/117,747

PRIOR FILLING DATE: 1999-01-29

NUMBER OF SEQ ID NOS: 14342

SEQ ID NO 341

LENGTH: 1266

TYPE: DNA

ORGANISM: Klebsiella pneumoniae
                                                            밁
                                                                                S
                                                                                                                  문
                                                                                                                                                  S
                                                                                                                                                                                          밁
                                                                                                                                                                                                                 ঠ
                                                                                                                                                                                                                                                          밁
                                                                                                                                                                                                                                                                                   S
